

# TMAC Universal Insulated Pole Platform

## Features

- Insulated platform
- Innovative polyurethane pads for grip to wood, steel, composite and concrete poles. Replacement poly-pad kit available separately
- Engineered Ertalon frame and deck
- Low maintenance
- High tensile rated steel chain, electroplated for corrosion resistance
- Easy to use chain gate locking mechanism
- Non-slip rough-top rubber matting
- Quick, easy and safe
- WLL 200kg

GROUP

Another great example of TMAC active innovation, the universal insulated pole platform is designed to support a person while working on overhead conductors or equipment. This is designed for application on wood, concrete, steel and composite poles. The patented polyurethane pad design provides a secure grip without any damage to the pole.

## ACTIVE INNOVATION
